SUMMARY

I'm Rozi, a 24-year-old Fullstack Web Developer, with 2 years of experience in the world of programming and with diverse skills in the fields of web development, networking, IT support and database management. I have successfully delivered several impactful projects, including the development of a web-based internal management system that improved operational efficiency. With a strong foundation in technology and a passion for problem-solving, I am dedicated to delivering innovative solutions that drive business growth and optimize processes.

EXPERIENCE
